## Experience

### FULL STACK DEVELOPER| KASSPOS SOFTWARE SOLUTIONS| SEPTEMBER 2024 – PRESENT

- Developed and maintained scalable mobile and web applications using *Flutter* for Android/iOS and *React.js* for web front-end.
- Built and integrated RESTful APIs using *.NET Framework*, enabling efficient data exchange and backend services.
- Led the development and maintenance of *e-commerce mobile apps*, *admin dashboards*, and an employee management system, ensuring cross-platform performance and user-friendly UI/UX.
- Initiated development of a *customer support ticketing system* using React and REST APIs to streamline issue resolution.
- Self-learned and explored *Java Spring Boot*, enhancing backend skills beyond project needs.
- Enrolled in *AI & ML courses* at MentorHints to gain foundational knowledge and future-proof technical skill set.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones in an agile environment.

### REACT DEVELOPER INTERN |MHCOCKPIT-CHENNAI| APRIL 2024 – OCTOBER2024

- Worked as part of a development team on the *MH Intellect* corporate website, contributing React components and integrating UI with backend services.
- Solely developed the *MH Agro* website (<https://mhagro.mhcglobal.info/>) using *React.js*, optimizing performance, responsiveness, and SEO best practices.
- Implemented dynamic UI/UX features, state management, and reusable components, delivering a complete, production-ready application.
- Gained hands-on experience with Git, API integration, and frontend deployment processes.
